Other pets considered

Type of home required
We are asking for older children only or
a child free home

We encourage applications from
Scotland

Hattie is a wonderfully sweet girl, who is looking for a loving retirement home. She enjoys walks of upto 1 hour daily (Ideally split into 2 walks). Hattie can be a busy little thing often picking up items on the floor in hope of a treat in true Labrador style. Hattie does have a degenerative spinal condition, however, it is very well managed with diet, exercise and medication and it has been stable for the past few years. Hattie loves a cuddle in the evening and enjoys a soft toy.
