Amazing dogs. Transforming lives.

Canine Partners

At Canine Partners we are dedicated to helping transform the lives of disabled people through our amazing assistance dogs. Our dogs give their partners greater independence and a better quality of life. We provide our dogs free of charge, and they are specifically trained to meet each individual's needs and to each person's disability.

With a network of speakers across the country, we would be happy to arrange a visit and give a talk about our work to your group, company or school. We also offer information sessions at our two training centres where you can come and watch a presentation, a demonstration by a dog in training, and a talk from an established partner about the difference their canine partner has made to their lives. Contact us for more information.

We don't receive any government funding so are wholly dependent on public donations to allow us to continue our work. You can help us to transform more disabled people's lives today through fundraising, making a donation, regular giving, corporate sponsorship or leaving us a gift in your will.

Amazing dogs. Transforming lives.

Our dogs work with people with even the most complex disabilities, such as cerebral palsy, muscular dystrophy, MS, brittle bones, polio, arthritis, spina bifida, spinal injuries and amputees including members of HM Armed Forces.

We are working closely with Help for Heroes, to place dogs with injured ex-servicemen and women.

Our dogs are trained to help with everyday tasks such as opening and shutting doors, unloading the washing machine, picking up dropped items, pressing buttons and switches, and fetching help in an emergency.

These life transforming dogs also provide practical, psychological and social benefits including increased independence and confidence as well as increased motivation and self-esteem. A canine partner also brings companionship, a sense of security and increases social interaction.

Former Major in the Royal Artillery, Jonathon and canine partner Toby

"I was injured while serving in Iraq in 2007. I have subsequently suffered with chronic hip and spinal pain. I didn't know it, but I had fractured my hips, which wasn't identified until an x-ray in 2009 by which time I was grinding bone on bone. My world fell apart.

When Toby arrived in July 2014, he brought with him a new lease of life for me. Previously I wanted nothing to do with anyone outside my wife and boys. I thought people were staring at me in my chair, so I hid away. With Toby by my side, I'm now happier to go out, with or without my family, as Toby is the focal point, and being such a handsome and special dog, I can't argue with that!

I know that I am a totally different person today, with Toby by my side."
