

Could you look after an amazing Canine Partners Brood?

Amazing mums. Transforming lives.

Why become a Dog Breeding Volunteer?

-  You will get a well-socialised dog to live with you as part of your family, with all the support, guidance and advice you need to continue her training.
-  The opportunity to raise a litter of puppies. You don't need previous experience of having litters.
-  Regular and ongoing support, guidance and advice. Access to 24-hour support from a member of our experienced Breeding Team.
-  Financial support - we will provide food, routine treatments and cover the cost of veterinary treatments. All of the equipment required for when the puppies arrive is provided.
-  The opportunity to meet like-minded people and help others and transform the lives of disabled people across the UK.

Find out how at caninepartners.org.uk/volunteer or email us at volunteer@caninepartners.org.uk
